

## Result of survey - Intelligence Seminar (1. Logic) -

### 1. How do you want to change yourself, and why?

- I want to be able to produce a new project because it seems to be interesting.
- What I want to communicate usually fails to communicate hearers, so I should be able to communicate it completely.
- Good at presentation.
- I was aware of necessity of consideration for good behavior and achievement.
- Able to talk to many audience without being stressed.
- I am not good at talking to a person older than me because it is stressed.
- Not having a motivation for what I am not interested in and “don’t mind,” so my grade would decrease.

### 2. What inspiration or question did you get through this class?

- How many amount of sweets should we set up to sell out and enlarge an amount of sell?
- <None>
- Understanding quantitatively makes a problem easy to analyze.
- I need to consider quantity.
- Thinking with describing and visualizing is good.
- How should we think to decide an amount of sell?
- We needed to think deliberately more to decide an amount of sell.
